INVITATION TO SUICIDE

US Foreign Aid Argument

Editor's note: The Seco Philosopher on his Johnson grass farm is talking about, if we understand his letter, international prosperity, although we may be wrong.

Dear editor:

One thing I don't understand about foreign aid—and understand, I'm in favor of it, I'm in favor of both foreign and domestic aid—is the argument that if we don't help other countries to get and stay prosperous, we can't stay that way ourselves.

In fact, I was reading just last night in a copy of a newspaper which a neighbor had wrapped some vegetables in and left on our doorstep as an example of domestic aid, where a foreign aid expert said in Washington that "we can't have world-wide prosperity as long as one segment of the world is still not prosperous."

I doubt this. Take me and the rest of the United States. As I understand it, the U.S. is at its most prosperous peak in history, people are making more money, spending more, borrowing more, owing more, than ever before, in fact, you might say prosperity is

nationwide, but you ought to see the segment of it bounded by the four sides of my farm out here. My situation seems to defy the argument you can't have nationwide prosperity as long as one segment of it hasn't got it, and I don't see why you couldn't stretch it to take in a world-wide situation too.

In fact, I have an idea if we're waiting for every single nation, and every single individual in every nation, to be prosperous before he cuts loose and enjoys his, my advice is to go ahead and cut loose, don't wait on me. I've got a different system out here. It's ridden out not only prosperous times but depressions too; you can hardly tell the difference.

My advice to anybody with prosperity on his hands and bashful about what to do with it, is to forget about me and use what he's got. I have no objection to me being prosperous, but I know what it takes, it takes work, and that's a pretty high price to pay.

Yours faithfully,
J. A.

Judgment Given In Land Case

AUSTIN — District Judge J. Harris Gardner Thursday entered judgment for the State in two veterans land civil cases. Both cases involved land located in Zavala County.

Recoveries totaled \$82,353.71, bringing the total civil recoveries in veterans land cases to \$1,210,524.92.

In the suits tried today, Judge Gardner gave judgment for the State against Bruce Ivey and J. Paul Little for \$50,814.91 in a case involving eight veterans, and against J. W. Little and J. Paul Little for \$31,539.80 in a five-veteran purchase.

Attorney General John Ben Shepperd has filed a total of 35 suits against individual promoters and development corporations. Thus far, the State has recovered the full amount sued for in 16 of these cases, losing none.

Twining Will Study Russian Air Material

A BEHIND THE iron curtain look at the Russian Air Force will be made by Air Force Chief of Staff General Nathan Twining who has already left here for Moscow. Certainly none of us knows what General Twining will be allowed to see or how technical will be his inspection. He voiced the hope on his departure that he would be allowed to fly in the Russian heavy bomber which would give him an opportunity to compare the Russian jet aircraft with our own B52 which is believed to be far superior.

On the heels of his trip to Russia, surely we will be obliged to invite a top Russian airman to make a similar inspection. I hope we get as much from the exchange of visits as the Russians feel they will get.

SOMEONE HAS FIGURED that if the American \$10 bill had been in circulation about 70 years before Columbus discovered America and if a bank teller had started counting them then, one at a time, he would just about be completing a count of some \$66 billion which represents the budget estimate for fiscal 1957.

MORE ABOUT MONEY— Records made available to a House subcommittee recently indicated that the nation's mints will produce an estimated 900 million coins during fiscal year 1957. The tally, of course, is not yet complete for fiscal year 1956, but during fiscal year 1955, United States mints produced about 605 million pennies, 186 million nickels, 95 million dimes, 46 million quarters and four million half-dollar pieces.

THE WAYS AND MEANS COMMITTEE of the House favorably reported to the House floor a bill for fiscal year 1957. The House passed the measure. The limit as set by law is \$275 billion and the Congress for fiscal 1956 authorized a temporary increase of \$6 billion.

Secretary of the Treasury Humphrey said he expects to have a national debt of less than \$272 billion by the end of fiscal 1957, but the increase is needed during the first half of the fiscal year when receipts are lighter than during the last half.

THE PRESIDENT has before him for consideration, after it was passed by both Houses, H R 9824, the War Orphans' Educa-

Most modern truck V8's ...and the pounds prove it!

Pound for pound, the most powerful truck V8's today are Chevrolets. That's one way you can tell they're the most modern V8's going!

Chevrolet's modern short-stroke V8 truck engines do more work for their weight than any other V8 in any truck today!

That means they carry around fewer pounds for power they develop. (They weigh up to 200 pounds less than other comparable engines!) It means, too, that less of the maximum truck G.V.W. consists of engine weight—and more is devoted to payload.

Stop by and let us give you the facts on Chevrolet's compact, super-efficient truck V8's.

Weigh the facts...
and you'll choose today's most modern trucks

Wasted weight is engineered out of Chevrolet truck V8's!

The ultra short-stroke of Chevrolet's truck V8's makes possible a rugged yet compact cylinder block. Modern design cuts down engine weight and increases engine efficiency.

More power per pound means more power for your payload!

Since less power is used in moving engine weight, a bigger proportion is available for moving your payloads. You get hour-saving performance on the job. And modern V8 power saves dollars, too!

There's a modern V8 for every Chevrolet Task-Force truck!

There's a powerful, deep-breathing V8—either standard, or optional at extra cost—in every Chevrolet truck model. Horsepower ranges as high as 195 for fast, efficient high-tonnage hauling.

Chevrolet Task-Force Trucks

Court May Decide Democratic Ballot

AUSTIN, Tex.—A court battle seems imminent to decide if counties must put the states rights referendum questions on the Democratic primary ballots.

Two "liberal stronghold" counties—Harris and Bexar—have said they will not. County committees denounced the referendum as "appealing to Ku Kluxism for a campaign of hate."

Attorney General John Ben Shepperd ruled to Jefferson County officials that putting the matters on the ballot was mandatory, and that penalties were provided by law for failure or refusal.

State Executive Committee members certified placement after receiving a petition signed by 153,000 voters—more than required by law. Voter opinion is sought on three questions—school integration, intermarriage of Negroes and whites, and interposition.

HOPE FOR TOURIST LODGES New hope for early action on the building of tourist lodges in state parks was presented at the State Parks Board meeting.

During the last session legislators approved \$25 million in bonds for construction of resort hotels in at least six state parks. In past weeks interested groups over the state have become impatient to know why the bonds haven't been sold and the building launched. Delegations from three towns came to Austin to ask.

Board Chair Andrew M. Howsley told them the Chicago bonding firm which has the contract has so far failed to sell one bond or find a responsible company to operate the property.

Former State Sen. Howard Carney, one of a group from Atlanta, announced that the Fred Harvey Co., a big nationwide firm, had expressed interest in building lodges in Atlanta State Park, Eisenhower State Park at Lake Texoma and Inks Lake State Park.

Carney predicted construction could begin by September with completion one year later.

STATE MAY BUY ROAD RIGHTS—Relief is in sight for Texas cities and counties which have been unable to finance right-of-way for desired new highways.

For nearly 30 years the State Highway Commission has authorized use of state funds for highway construction only if the cities and counties purchased right-of-way. In populous areas cost of needed land frequently ran into millions. During the past year Dallas and Harris counties failed in financing attempts.

Now the commission has announced the state will start paying for right-of-way under the new federal highway aid bill.

Final congressional approval will launch a multi-billion-dollar interstate road building program for which the federal government will pay 90 per cent of the costs. Thornton Jr. predicted, however, that state right-of-way buying would not begin for some time. First funds will be used for projects where road rights have already been secured by local agencies.

GOVERNOR SEEKS DROUTH AID—Free livestock feeds for Texas farmers hardest hit by drouth is being sought by Gov. Allan Shivers.

Shivers has submitted a contract to the U. S. Dept. of Agriculture to secure surplus federal grain. It would be distributed by the State Welfare Department.

Farmers receiving the free feed would be barred from commercial sale of livestock, poultry or products.

Ten counties have been certified by the state as eligible for such aid. They are Karnes, Jim Wells, Wilson, Goliad, Frio, Live Oak, McMullen, Atascosa, Gonzales and Bee.

Shivers also announced he had negotiated for reduced freight rates for ranchers in 80 drouth-stricken counties to ship cattle to outside pastures.

FINAL TURNPIKE CONTRACT—Last contract needed to completed construction of the Dallas-Fort Worth toll road was awarded last week by the Texas Turnpike Authority.

It was for \$1,175,804 in paving. Unless a steel shortage develops, completion of the \$58 million road is expected on schedule by July, 1957. It will be Texas' first toll road.

Present plans are to charge passenger cars 50 cents and trucks \$1.25 for the 30-mile drive.

MORE SALK SHOTS—The U. S. Public Health Service released 229,599 shots of Salk polio vaccine for use in Texas.

Texas Health Commissioner Henry A. Holle advocated removal of the voluntary age restrictions on use of the vaccine. At present, vaccine is available only to children under 20 and to expectant mothers.

Meantime the State Health Department sent a four-man team of experts into the Brownsville-Matamoros area to study the threat of yellow fever. The department said "the inexorable advances of jungle yellow fever from Panama toward Mexico and the Gulf Coast of the United States is causing qualms of uneasiness."

IMPROVEMENT IN ORDER—State Auditor C. H. Cavness suggested in an audit report on the Insurance Commission that this big state agency improve its personnel methods. He said he found the commission's rental contract for space in an office building owned by an insurance company "not out of order."

SHORT SNORTS—Texas Law Enforcement Foundation's \$40,000 "Travelab" will begin touring Texas next fall. A 55-foot "rolling classroom" on newest crime detection methods it is designed to further the foundation's program of enlisting citizen support for good law enforcement.

Despite reduced purchaser nominations, the Railroad Commission increased the allowable Texas crude oil production for July by 70,973 barrels over June, after four successive monthly cuts. Authorized July flow is 3,322,043 barrels daily.

State Agricultural Commissioner John C. White reported the Lower Rio Grande Valley may equal its last-year bales, but reported disastrous drouth conditions in the area from Austin to Alice. The drouth situation is "the worst I have ever seen," he said after a tour.

V. N. Ehlers, director of the division of sanitary engineering in the State Health Department, was named the 10th honorary life member of the Texas Society of Professional Engineers, in recognition of his long public service. The National Park Service announced tentative plans for \$5,957,000 construction of roads and trails and \$4,320,000 for buildings and utilities in the Big Bend National Park over the next nine years.

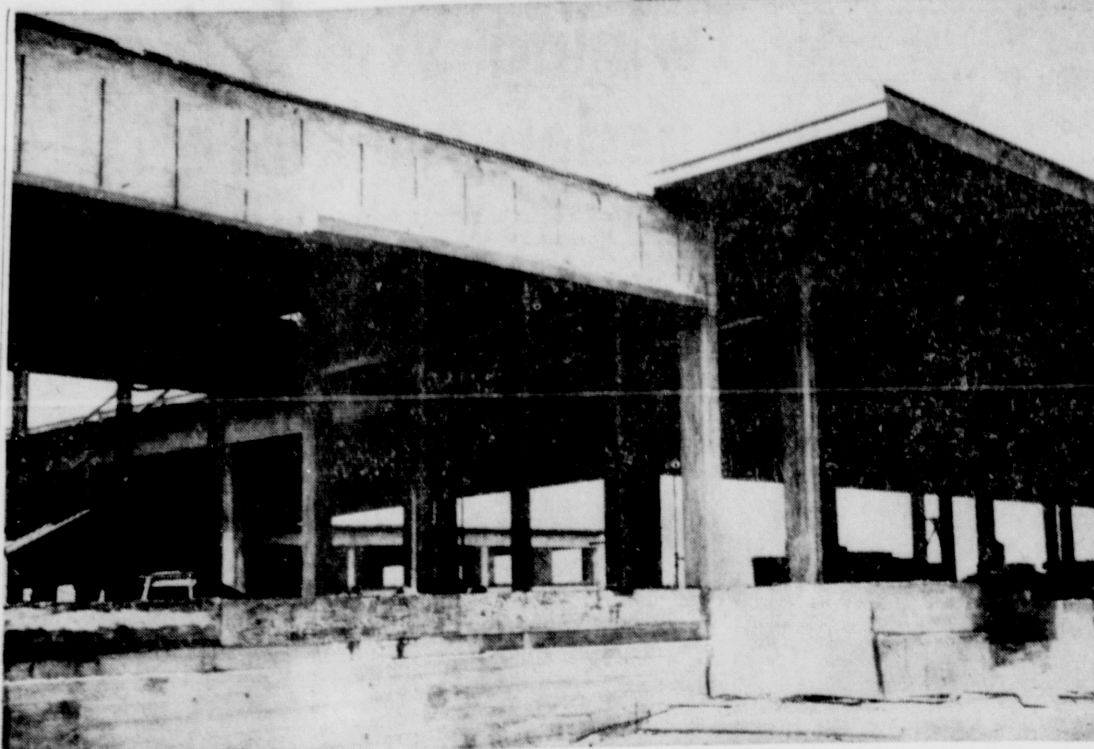

Edward H. Hall, 47, died Wednesday in Midland. He is survived by his wife, Martha Smith Hall, mother, Mrs. Katie Hall, Castroville.

He is also survived by two brothers, Eugene and Elmo of San Antonio, and one sister, Mrs. Clarence Huegel, Rio Medina. He had three nephews, three nieces and one grand niece.

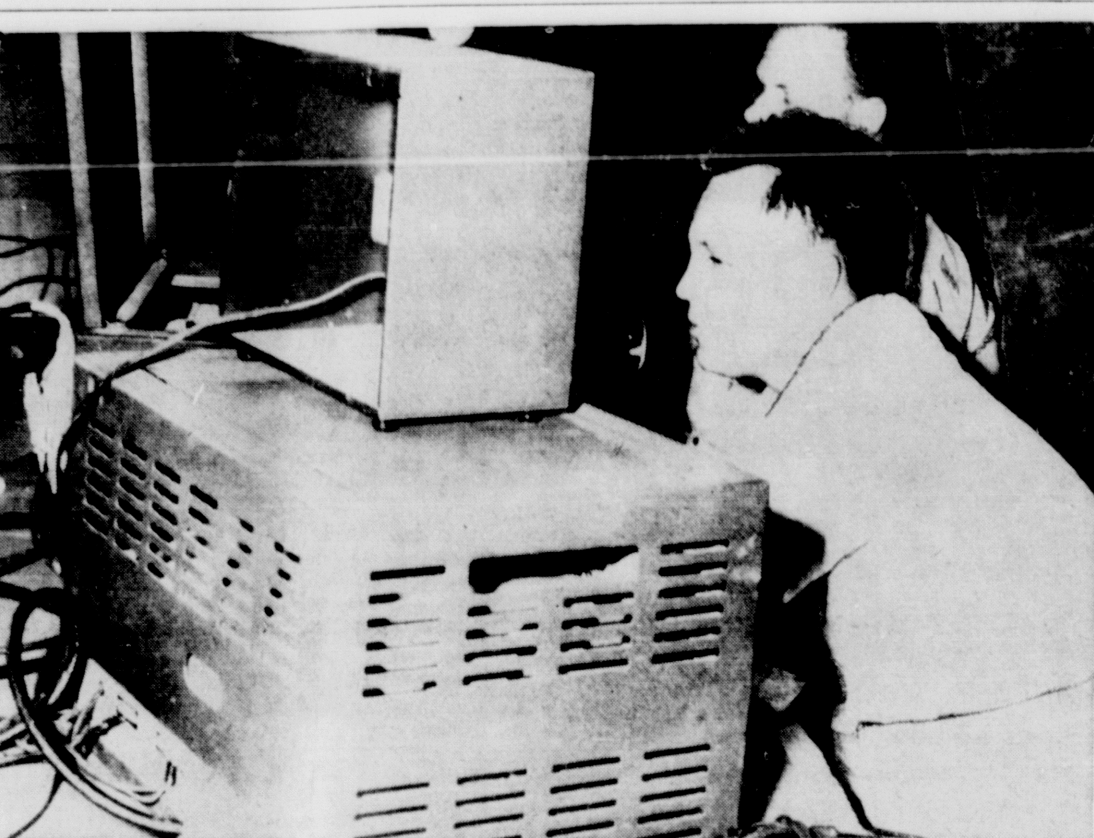

Funeral services will be held in Lockhart Friday.

SOIL CONSERVATION DISTRICT
Officials of the Medina Valley Soil Conservation District reported a turnout of 175 at their June 22 rootplowing and range seeding demonstration on the W. W. Wernecke Ranch west of Castroville. John Tom Kirby of Natalia served as master of ceremonies for the big day.

Lawrence Rothe, D'Hanis reported on results of rootplowing on his own ranch. In April, 1955, he rootplowed 26 acres of brushland and seeded it with two pounds of blue panic grass per acre.

"Best money I ever spent" he said, "I've been going along on these farm program's a long time too. This strip was bottomland with heavy mesquite. In May, 1955, I got 5.70 inches of rain. By Aug. 1, the blue panic grass was as tall as I am. I got

a good even stand and to a lot of seed. I think its the practice we have in this district. It's new but its showed results."

Jack Stevens, Soil Conservation District representative, demonstrated effectiveness of moisture retention on rootplowed range. Following rootplowing the took moisture six times rapidly.

ASC Committeeman H. J. reported on assistance able to farmers and ranchers who want to carry out the water conservation sure. In most instances in Texas will pay up to 50 percent of the cost of this following rootplowing and ing.

Jack M. Fletcher, Promotion Manager of a mery company in San Antonio reported on the history of rootplowing and range seeding. He said: "Rootplowing is a new practice by any name. The first rootplowing was some 20 years ago. However, just been in recent years farmers and ranchers, through soil conservation tricts, have added a two essential factors into the difference and account the tremendous acreages rootplowed in south Texas are proud of the fact they have developed of a box which has resulted in stands of grass and a saving to the cattleman."

Conservation Contractor Bader, Hondo, had his tractor on hand to demonstrate the rootplowing and seeding hardland range site, heavily fested with whitebrush. A pasture with complete rest plans on establishment. The grass is established. The adjoining US Highway 90 be marked by a sign.

Cheryl Gray is the first grandchild of Mrs. Howard C. Miller of Stelton, New Jersey and the first granddaughter of M&M E. W.

Mr. and Mrs. Richard Biediger Jr.
Married in LaCoste Church June 20

Moeller, Biediger Rites Held In LaCoste Church

Miss Elva Lois Moeller became the bride of Richard A. Biediger Jr., in a double ring ceremony June 20 in Our Lady of Grace Catholic Church, LaCoste.

The bride is the daughter of M&M G. T. Moeller of LaCoste and the groom is the son of M&M R. A. Biediger Sr. of LaCoste.

Miss Moeller's dress was fashioned with tiers of imported lace and nylon tulle, ending in a Chapel train. The bodice with a V-waistline, was designed with a Queen Anne collar, applied with lace trimmed with pearls and sequins. The sleeves were long and tapered to points. A fingertip veil of bridal illusion was held by a lace crown of pearls and rhinestones. She carried an orchid with lilies of the valley on a white prayer book.

The church was decorated with white gladioli on the main altar

and assorted flowers on side altars. Wedding music was sung by Our Lady of Grace Choir with Miss Dorothy Smith as accompanist. The Rev. Armand J. Weber officiated in the rites.

Mrs. Ronald Moeller, sister-in-law of the bride, was matron of honor. Misses Lois Maegelin and Alice Schlorff of Smithville, were the bridesmaids, Miss Dorothy Mae Biediger, sister of the groom was junior bridesmaid and Miss Nancy Hitzfelder was flower girl.

Maurice Biediger served as best man and groomsmen were Malcolm Biediger and Ronald Moeller.

Mrs. Alex Hitzfelder Jr. presided at the bridal book during the reception, which was held in the LaCoste VFW Hall.

The couple will make their home in Abilene.

Olivia Schwoppe Wed In San Antonio Ceremonies

Miss Olivia Dorathia Schwoppe, daughter of M&M E. C. Schwoppe, San Antonio, became the bride of Charles Malcolm Griffin, son of M&M F. J. Griffin, San Antonio, in St. Luke's Episcopal Church recently. The groom is the grandson of Mrs. Louis Decker and the late Louis Decker.

His mother was Lurene Decker of Hondo before her marriage. Rev. Joseph Brown officiated in the ceremony.

The bride wore a gown of chantilly lace and tulle, fashioned with a close-fitting bodice, finished with a scalloped decol-

quere, N. M., was matron of honor and Misses Jo Clary, Nathalie Grum and Clare Lester of Orange were bridesmaids.

L. A. Schrader Jr. of Boerne served as acolyte.

Terry McQuire was the best man and groomsmen included letage and short sleeves. The skirt was bouffant and a d floor length. A lace and pleated tulle crown held the illusion.

Mrs. V. C. Walker of Alburquerque, George Pierce and Charles Fohn of Hondo, Ushers were E. C. Schwoppe Jr., D. M. Lansing, A. C. Zoeller, K. L. Karger of Corpus Christi, R. B. Schwoppe of Port Lavaca, Dick Brusenhan, Paul Medley, Bobby Tate and C. H. Karger of Shreveport, La.

A reception, immediately following the wedding, was held in the Minuet Room of the Menger Hotel. Misses Cathren Beniteau, Betty Beniteau, Myrna Bieberdorf and Eva Linda Rash of Laredo had charge of the bridal book.

Local Church Goes Outside For Services

The First Baptist Church, Devine, has moved outdoors for their evening services.

"Services Under the Stars," has proved to be one of the most popular parts of the Devine church, according to Don Rose, pastor.

Color slides of life and places in the Bible lands are shown each week, and a gospel sermon is given on the same theme suggested by the pictures.

The outdoor program began six years ago with makeshift equipment.

Albert M. Davis Wins At HAB

Aviation Cadet Albert M. Davis of Youngstown, O., has been named Hondo Air Base Cadet of the Month.

An expense paid weekend trip to a resort in Bandera was one of the awards.

Each month, the Aviation Cadet Group Major will make selections from the Cadet Corps and the Director of Military Training will choose the winner.

Castroville Council Wants More For Field

The Castroville City Council has appointed a committee to study renting fees of Castroville Field to Texas Aviation Industries.

The council, meeting Tuesday night, decided to ask TAI officials to meet with them, in an effort to work-out a more reasonable fee per acre for the field. The present lease, which will last as long as TAI has a contract with the government, is for \$1 per acre. The government paid \$6 per acre for the land during World War II.

The Council feels they can lease the land to irrigation farmers for \$10 to \$15 per acre.

When the original lease was drawn up, the city took the position that it was leasing the field to the government, directly, instead of a civilian contractor.

Eugene Suehs, City Councilman and head of the appointed committee, says rental of the field to TAI prevents the city

from offering its facilities to some industry which would bring its payroll to Castroville.

Castroville's Board of Equalization, consisting of Mayor Woodrow Sharp, Wilfred Tschirhart and Claude Tondre, met and raised assessed values on a greater part of the property in Castroville. The increase is from 30 to 50 per cent and citizens were given one evening session in which to protest the valuation change.

Since taking over the area across the river, the city is negotiating purchasing of power and light facilities from a San Antonio company now serving the area.

Marketing quotas for the 1957 wheat crop have been proclaimed and July 20 set as the date for a referendum when wheat growers will decide by ballot whether or not quotas will be made effective.

POLITICAL ANNOUNCEMENTS

I hereby respectfully announce my candidacy for re-election to the office of Tax Assessor-Collector of Medina County, Texas, at the General Election November 1956.

It has been my endeavor, during the time that I have served as your Tax Assessor-Collector, to render honest, efficient and impartial service to all, and if re-elected I will continue to do so, to the best of my ability.

Your friendship, favors and honors which you have heretofore conferred upon me, are most sincerely appreciated, and I trust that you may again favor me with your vote and support.

Sincerely yours,
 Alfred J. Rohrbach
 Tax Assessor-Collector
 Medina County

Thanking the voters of Medina County for past favors, I hereby respectfully announce my candidacy for re-election to the office of county attorney at the general November election.

I will greatly appreciate your support and vote for the office.

Very sincerely,
 R. J. NOONAN

With sincere thanks to the people of Medina County for past favors and for the splendid cooperation accorded me in the performance of my duties, I now respectfully announce my candidacy for re-election to the office of sheriff of Medina County at the general election in November. Owing to pressing duties it will be impossible for me to see all of the people, but I want you to know that I will greatly appreciate your continued support, and I promise you, if you re-elect me to this important office, that I will continue to serve you, promptly and efficiently, without fear or favoritism, to the very best of my ability.

Sincerely yours,
 Charles J. Hitzfelder

Natural Gas...

...important factor in the production of Cement

The tremendous volume of industrial, commercial and residential construction here in the Gulf South has made ever-increasing demands on the cement industry for a quality product and high output. Natural gas plays a vital role in the production of cement, and serves this industry with dependability and economy. The cement industry of the Gulf South, like other industries locating along the pipe lines of United Gas, is offered adequate, uninterrupted supplies of fuel the year around... an important factor in attracting industry to any community.

What's New in Getaway?
Try a '56 Buick and See!

Buick SUPER 6-Door 4-Door Riviera

You've probably heard us say a lot, recently, about the 1956 Buick's new Variable Pitch Dynaflo.*

And maybe you've wondered just what that "new" means.

Well, it means a brand-new principle in transmission design. A new way to make whirling oil add to its own velocity and produce fast torque build-up at only part throttle.

What does it do for you?

It gives you a quick new getaway response right in the first inch of pedal travel—right where you do most of your normal driving—and right where you get better gas mileage every inch of the way.

It gives you more safety—surge break-away when you floor the pedal and switch the pitch—more electrifying full-power acceleration to pull out of a tight spot.

And it gives you all this with absolute smoothness—because no gears ever shift in Dynaflo.

But if you think this great new getaway is the only reason for Buick's strong position in the Top 3 of America's best sellers—listen:

In every 1956 Buick there's newness from end to end.

New 322-cubic-inch V8 engines. New brakes, new frame, new rear end. A new deep-oil cushioned ride. New handling ease, new quiet, new comfort. New carburetor "deicing." New exhaust manifold. New interlocking safety door latches. New Safety-Aim headlamps. New features everywhere you look—including new styling and beauty inside and out.

What it all adds up to is the Best Buick Yet, by far. And we cordially invite you to come see and sample all the new thrills a '56 Buick has in store for you.

You'll find them packaged in a price that makes any model you choose your smartest buy yet. Can you make it this week?

*New Advanced Variable Pitch Dynaflo is the only Dynaflo Buick builds today. It is standard on Roadmaster, Super and Century—optional at modest extra cost on the Special.

GRAND PRAIRIE PROGRESSES

By Jerry June Berger

Grand Prairie, a city up on the north central plains of Texas that is just a bit bigger than Hondo, has accomplished something which we have been advocating for our town for many months.

An article in the Dallas Morning News tells the story. It says: "Fifty-two substandard dwellings have been torn down or removed from residential sites condemned by the City of Grand Prairie in a town-wide slum clearance campaign. The city building inspector said 40 more dwellings have been condemned as unfit for use and these face demolition or removal. Thirty other condemned dwellings have been rehabilitated by repairs or remodeling."

First impressions are lasting ones. Hondo could be far more inviting to newcomers and attractive to visitors if owners of vacant lots would make a reasonable effort to clean off their property occasionally and if some of the lots now occupied by so-called buildings were cleared.

Not only are some structures eye-sores to our visitors, newcomers and citizens, but they are also fire hazards and dangerous to inquisitive neighborhood children.

The Hondo Garden Club passed a resolution last fall unanimously favoring a building code and slum clearance project for our city. Our mayor is for such action. He told us so. We have also heard city councilmen express interest in the program too.

However, it will up to these men, the mayor and councilmen, to follow through on such an act. These civic leaders, serving without pay, give hours of time to matters of city importance each month. We feel certain that very soon they will have an announcement to make concerning a building clean-up and maintenance ordinance for Hondo.

LETTER TO THE EDITOR

Dear Mrs. Berger,
Hooray!! I am so glad my husband and I aren't in a class alone with our opinions of what we think about this new style of music we have these days.

They call it music—we can't even bear to listen to it. It is only a lot of noise, giggling, shrieking and screeching as though they are in pain from a bunch of ant bites.

Here's to you hoping the appreciation of good music will soon come back and we will have a world of civilized people once again.

TAKES A LOOK AT ANOTHER PIECE OF PATERNALISM

A MATTER OF INTEREST TO FARMERS

From the current Agricultural News Letter, sent out by the Federal Reserve Bank of Dallas, Texas, as of June 15th, we clip the following facts as compiled by the bank's Agricultural Economist, Mr. J. Z. Rowe.

It is a matter in which every farmer will have a very vital pecuniary interest; and for that fact he should follow up until he has a complete understanding of how the proposal shall work and to what extent it will affect him individually.

Under the heading, "Farmers to Get Gas Tax Refund", the letter says:

"Some farmers will soon have money coming to them in the form of a gasoline tax refund. Legislation signed by the President on April 2 allows farmers to obtain a refund of 2 cents per gallon for the Federal excise taxes paid on gasoline used for farming purposes. The law will save farmers an estimated \$60,000,000 in operating costs this year and more in future years."

"The first refunds will be made after June 30 and will cover gasoline used on farms during the first 6 months of 1956. In subsequent years, refunds will be made annually for the period July 1 through June 30."

"Farmers eligible for gasoline tax refunds must file claims on Form 2240 between June 30 and October 1. The forms will be available after June 1 from county agents, post offices, banks, and Internal Revenue offices."

"The tax refund applies only to gasoline used on the farm for farming purposes. No refunds are allowed on gasoline used in cars or trucks on highways—even though on farming business—or on gasoline used in processing, freezing, and canning operations. The recently enacted law also applies to diesel and other motor fuels used in farming operations. "Gasoline receipts should be saved and accurate records kept of gasoline used so that the Internal Revenue Service can check the amounts claimed."

"According to the Commissioner of Internal Revenue, regulations relating to the new law will be issued as soon as possible."

Of course, and rightfully so, the farmer's first interest is in securing the "refund" and thus profiting by the saving thus made.

The farmer, wise to his own interest, will do just that. But from a purely academic standpoint, one can but wonder why the government bothers to collect the tax at all.

On the face of the matter, neither the dealer—and that means every handler of the product from the man who pumps the crude product from the bowels of the earth to the service-station attendant who fills your tank—nor the government itself is to take any profit from your refund!

But any one can see that the process must entail an enormous amount of service.

And service must be paid for! All of which must be calculated into the cost of your gas before your refund is coming.

Does it not seem reasonable that if the government kept its meddling hands out of the transaction, the saving in the handling of all this scheme to make it appear to the farmer that he is saving 2 cents on each gallon of gas would enable the dealer to sell at a price that would save the buyer, infinitely more and eliminate all of the wasted effort

AIKIN'S QUALIFICATIONS

Re-Printed From the Paris News

That there is a strong and growing undercurrent flowing throughout Texas to present Senator A. M. Aikin, Jr. of the First Senatorial District, as a candidate for Lieutenant Governor is no secret among the politically well-informed who keep up with such possibilities in the Lone Star State. This, to The Paris News, is most gratifying since we consider him worthy of promotion after twenty-three years of honorable service in the Texas legislature, during which time there has never been raised any question as to his honesty, integrity and sincerity of purpose.

He is not the rabble-rousing type, is no showman on the political stage, but he does impress people with his sincerity. He could be a better back-slapper and glad-hander, but this does not add to the efficiency of a man in public service. The lobbyists of special interests found out long ago that he is honest and his constituents have found him to be frank and honest to tell them if he cannot go along with their views on legislative measures, though no man could be more considerate of the people he serves.

No man who does anything constructive in the Legislature, or anywhere else, can do so without building up some opposition. There are those who do not like the Gilmer Aikin school bill, but there are others who feel it was a forward step to move Texas up from the lower rungs of the ladder in our standing in educational circles in the Nation. Teachers and friends of education are now and have been almost solidly back of him. The Gilmer-Aikin bill, incidentally, is charged with a lot of objectionable features of our educational system for which the law is not at all to blame.

The Paris News believes that the first prerequisite of a public official is that he be honest, intelligent, sincere and sober, and scores a 100 percent grade. These qualities far outweigh the value of political window-dressing to get votes.

The First Senatorial District thinks well of Senator Aikin as we evidenced by the fact that he had no opposition in the ten counties in the last election. What a man's own home folks think of him should have weight with those who are not as intimately acquainted with him. They know he does not tell a lot of funny stories in his addresses and that he does not "bowl over" an audience, but they like him.

Senator Aikin was born at Aikin Grove in Red River county, on October 9, 1905. He rode horse-back over four miles of muddy roads to school in Deport where he graduated in 1923. Later he attended Paris Junior College and milked cows to earn his room and board. He worked in a department store in Paris from 1925 to 1931, then entered Cumberland Law University at Lebanon, Tennessee, where he graduated and received his law degree in 1932.

At present Senator Aikin is the Senior member of the law firm of Aikin & Townsend and is Senior member of the Aikin's Men's Wear store in Paris, with his brother, Dean Aikin. On a visit many years ago former governor Coke Stevenson, seeing the signs at the store, remarked to a friend: "I always like to see a member of the legislature with some visible means of support". Senator Aikin is a director in the cognition of his ability in the Liberty National Bank, a re-fields of business and finance.

Our State Senator was first elected to the Texas Legislature in the House of Representatives in 1932 where he served until 1936 when he was promoted to the Senate where he has served for the past eighteen years. He has

been chairman of the two most powerful committees of the Senate, Finance and State Affairs, and was chairman of the Committee on Education for years. He has been chairman of the Employment Committee, chairman on Contingent Expenses, chairman of the General Investigating Committee, as well as a member of practically every committee in the Senate.

He was President Pro Tempore of the Senate in 1943 and was Acting-Governor of Texas for fourteen days during the absence of Governor Coke Stevenson, who is his long-time personal friend. In that position he showed courage and wisdom when he met an emergency by declaring martial law in Beaumont to prevent a race riot, for which he received state-wide acclaim.

Senator Aikin is married and has one son, A. M. Aikin, II. His capable and talented wife is well and favorably known in Austin and throughout the Senatorial District her husband serves.

To list all of the constructive legislation for which Senator Aikin is responsible would require a half column of newspaper space. But the Paris News is not saying anything unknown to his district and to many in Texas, but perhaps not known by the people of the state in general.

The people of the First Senatorial District, we believe, will back him for Lieutenant Governor almost solidly and that he will have side support over the entire state. Counties in his district are: Lamar, Bowie, Cass, Delta, Franklin, Hopkins, Marion, Morris, Red River and Titus. Senator Aikin has made no announcement as to whether he will be a candidate, but friends close to him know that he is giving the matter serious and thoughtful consideration. If the people want him for Lieutenant Governor it would, The Paris News believes, have great influence on his final decision, if they would let their wishes be known to him.

Braves Blast LaCoste

Hondo's rampaging Braves put together 18 hits and 13 runs here Saturday night, June 23, to blast LaCoste, 13-4.

Fast-balling Blanton Taylor spaced eight LaCoste hits evenly and sent 15 visitors down swinging. Taylor also helped his own cause along with a homerun and three singles in five trips to the plate.

Homer Martin had a perfect night at the plate, slamming two homeruns in his only two official times at bat.

Catcher Jerry Muennink tied Taylor for the game's top batting honors, getting four singles in five times at bat. J. Marshall and Heiligman were the other two Hondo baseballers collecting more than one hit during the night's action.

NGUnit Moves To Pup Tents

Members of the 141st Infantry Regiment's Heavy Mortar Company of Hondo moved into pup tents in the woods and hills of Fort Hood Monday for five days of living under simulated combat conditions.

Some men take part in the testing program being conducted by Army for determination of training efficiency and combat readiness of the 36th Division. Approximately 1,000 men of the division will take part in these tests.

In the first week of training, the mortarmen got in some firing on the tear drop range. They were scheduled to fire again Tuesday, with live shells being used in the firing.

Climax of the first week was the 36th Division annual review, with Gov. Allan Shivers; Lt. Gen. John H. Collier, commanding general of the Fourth Army; Maj. Gen. K. L. Berry, Texas adjutant general, and Maj. Carl Phinney, commander of the 36th Division on the reviewing stand.

Commanded by Capt. Roland Weber, the Hondo company will return home Sunday.

Pirates Hold Tryout Camp Next Week

The Pittsburgh Pirates will conduct a tryout camp at Fredericksburg, Friday and Saturday, July 6 and 7. The sessions will be held at Jimmie Pike Field and will start daily at 10 a.m.

Tryout sessions will be under the direction of Buddy Hancken, Pirates scouting supervisor in the South Southwest Area.

Players must be at least 16 years of age to be eligible to attend and no Junior American Legion player will be permitted to participate in the camp if such participation would interfere with any of his Legion activities. Such tryout will only be permitted with a letter of approval from either his Legion coach or the Commander of the Legion post he represents in Legion play.

Players are expected to furnish their own baseball shoes, uniforms and gloves with the Pirates furnishing all other equipment. Players will also be responsible for their traveling and living expenses, with the understanding that all expenses will be reimbursed to those players signed to contracts with Pittsburgh organization clubs.

SPEAKING OF SPORTS

By Dr. John H. Jennings

We are a little rusty on local sports this week since we just returned from a most enjoyable vacation at Miami Beach, Florida. Got to see plenty of sports there, for in our wonderful room in a very friendly and hospitable hotel overlooking the ocean and the beach, we could see lots of water sports—of course I was more interested in the bathing suit styles than in the actual aquatic games.

Little League

The little league is moving at a fine pace now. The boys have shown a world of improvement over last year. By the time these boys reach high school they should be good representatives for the Owls. The managers are doing a fine job of giving baseball instructions and you just cannot give these men enough credit for they are giving a lot of their time and energy to make this summer baseball program a success.

Golf

About twenty-five golfers entered a tournament in Uvalde last Sunday and most everyone made a fine showing. I do not know all the winners but Bob Nations, Blanton Taylor and Capt. Robert Sizemore came home with some prize money (in merchandise). This Sunday will find a unique tournament unreel at the HAB Course. It will be a sort of Paul Jones in golf—a male will draw for a female partner and they will play nine holes, each taking alternate swings at the ball.

Senior League Re-Arranged

THE Junior and Senior League Directors held a meeting Monday night to discuss some problems of the baseball program.

Two big items, needing attention, is the urgent need of umpires who will accept at least one game a week, and the next, or possibly even greater need, is water so the diamond can be cared for.

President C. D. Sadler appointed a representative to approach the City Council for relief on the water situation. The diamond is a mass of powdered dust and is getting worse each day.

It has been requested that managers leave playing equipment at Smith's Humble Station. Practice equipment should be obtained from W. S. Porter. Frank Holden is the equipment manager for the Senior (pony) League.

Another big item of business was the changing of the Senior (Pony) League from 4 to 3 teams. This move was necessary to insure each team enough players. The Senior League will play on Monday and Thursday of each week. This will give two teams two games a week and one team one game. The following is a new schedule and revised roster with Managers of the Senior League:

Team No. 1

Glen Schweers and Monte Williams, managers.
Butch Smith, Mike Tschirhart, John Wolf, Fred Graff, Cliff Sadler, Charles Zuberbuehler, Corcencio Barrientes, Clayton Saathoff, Tommy Santos, Martin Naegelin, Albert Lopez, Rodney Freeman, Tommy Carter, Joaquin Tapia, Clarence Heinlein, Alfonso Gonzales, John Korbell and Ed Tapia.

Team No. 2

Wayne Siegler and Arthur Gallucci, managers.
Charles Stiegler, Bill Hardy, Billy Potsoyich, J. H. Meyer, Jr. John Schuehle, L. J. Folse, Jr. Enrique Turriavate, Robert Landers, Dick Proctor, James Sehoellman, Arturo Reyes, Harry Haltman, Jerome Reinburg, Wesley Brieten, Ronnie Ubrich, Mike Moore, Reyes Escamilla, Rudy Ituarte Jr. and Lupe Alvarez.

Team No. 3

John Tondre and Blanton Taylor, managers.
Charles Neuman, Richard Schweers, Bobby Ward, George Brucks, Dale Linderburg, John C. Hartman, Ed Becerra, Cordell Bohlén, Pilar Cantu, J. H. Stiegler, Make Yates, Felix Moreno, Preston Moeblus, Ivan Stracener, Larry Hermes, Gregory Pedroza and Royce Hartman.

Girls Win Third In Poteet

The Hondo Hurricanes, girls softball team, took third place in the Poteet Invitational Tournament last week, by downing Castroville, 11-1.

After losing the first game to LaVerna, 2-0, the Hurricanes turned-back a Karnes City nine by a score of 9-6, in the five last innings.

Getting off to a fast start, the Hurricanes scored six runs in the bottom of the first inning, leaving Karnes City behind in their dust.

During the play-offs, Hondo met Castroville, defeating them after four innings due to the ten-run lead.

The Hurricanes will participate in another tournament—in Devine—July 9-13.

LEGION WINS 13-11 Tilt

Hondo's American Legion nine opens a crucial two-out of three series with powerful Uvalde at Uvalde tonight, after a "storybook finish" victory over Central Catholic Wednesday night.

Local fans will get a chance to see the Hondo and Uvalde Legion teams in action here Tuesday night, July 3, on the Hondo High School diamond. Game time is 8 p.m.

Third sacker Royce Groff made the June 27 win over Central Catholic possible with a dramatic three-run homer in the last of the seventh.

With Central Catholic leading 11-8 going into the final frame, Hondo began its thrilling last-ditch rally. Francis Lutz walked to lead off the inning, and raced to second on an error on Mike Finger's grounder. Finger and Lutz moved up one station a few minutes later on another error, and both scored when pitcher Luis Lutz banged a one-bagger.

Steve Haby walked, and Justin Jungman fled out for the second out of the inning. This set the stage for Groff's appearance to the plate.

Groff, who had gone hitless in two other official times at bat, fouled off three pitches and sent the fourth sailing over the left field wall for a homerun and the ball game.

Central Catholic took the lead in the top of the first inning, gaining two runs on one base hit. Hondo came roaring back in its half of the initial stanza with five runs.

The Hondo Legionnaires went further out in front in the last of the third as they hammered away at the San Antonio pitcher for three runs and three hits.

Hondo's lead faded fast in the next two innings, as Central Catholic garnered one run in the fourth and one more in the fifth to knot the score at 8-8.

Central Catholic put together an error, walk, wild pitch and a triple in its half of the seventh and final inning for three runs. But if proved fruitless, as Hondo staged its amazing rally to take the win.

Top batsman for the Hondo baseballers was Jungman, who collected three singles in five trips to the plate. Alvin Hartman was the other Hondoan to get more than one hit during the night, smacking two hits in two times at bat.

In other games last week, Hondo whitewashed Castroville, 5-0, June 22 with fast-balling Francis Lutz going the distance and getting credit for the win. Lutz allowed only four hits in that game, and all were scattered.

Justin Jungman and Alvin Hartman paced Hondo in hitting, with each managing two hits in three times at bat. Steve Haby, Curtis Wiemers, and Henry Balzen all collected one hit a piece. LaCoste handed the Hondo Legion baseballers their second setback of the year Tuesday night, June 26, as they took a 7-5 decision from the Hondoans.

Hartman, one of the Hondo's most consistent hitters, was again top man at the plate for the local nine, as he collected two hits in four at bats. One of his hits was a double.

Hondo Legion's record is now six wins and two defeats over the season. J. G. Barry is the manager of the team, while Bob Nations is his assistant.

Class 57-E Graduated Saturday

Class 57-Echo received their graduation certificates from Hondo Air Base Saturday.

Maj. Roger G. Altman presented special citations and certificates to graduating class members.

Starting the program off was a formal review Saturday morning. A graduation party ended the classes' six months training at Hondo.

Class 57-Quebec entered Hondo Air Base Wednesday and will begin classes Monday. The next class will enter around the first of August.

J. Whiteside Drops Dead In Gonzales

Funeral services for James Eli Whiteside, 85, were held June 19 in Gonzales. He died the day before while working in the yard at his home.

He is survived by two sons, three daughters, six grand children and four great grand children.

Sons are E. M. Whiteside and A. B. Whiteside, both of Natalia, and daughters are Mrs. Henry Morgan, of Gonzales; Mrs. W. L. Lancaster, Devine; and Mrs. Roy Rogero, Rockport, Tex.

He was married to Minnie B. Storey, now deceased, on Dec. 14, 1899 at Travis, Texas. Whiteside belonged to the Methodist church and served as a school board trustee in Gonzales.

Interment was in Gonzales. Friends and relatives attending the services from out-of-town included M&M M. L. Storey, Beeville; James Bailey and family, Hondo; M&M Bradley Bailey, Hondo; and Roy Roger and family of Rockport.

Mrs. Schott Dies At 91 In Castroville

Mrs. August Schott Sr., nee Anna Poerner, died at Castroville June 16, at the age of 91 years. She was born March 18, 1865, and lived in Castroville for the past eight years.

She was married to August Schott Sr. in 1887, in Castroville, and lived there until 1894, when she moved to Devine. After 50 years in Devine and the death of her husband, she moved back to Castroville.

She is survived by four sons—Eddie, of San Antonio, Willie of Devine, Joe and August, both of Castroville, and one daughter, Mrs. Paul Renken of Hondo. She is also survived by 28 grandchildren, 49 great grandchildren and one great, great grandchild.

Rosary was recited at Tondre Funeral Home last June 17, with funeral services being held June 18, at St. Joseph's Church, Devine, with interment in Devine. Pallbearers were Alfred Schott, Wilburn Schott, Jack Schott, R. J. Schott, Henry Schott Jr. and M. L. Renken, all grandsons of the deceased.

Ziegenbalg Services Held In Natalia

Funeral services for Hans Ernest Ziegenbalg, 54, were held June 21 in the Riebe Funeral Chapel, Natalia.

Ziegenbalg was born March 15, 1902, in Lytle, later moving to Natalia where he attended school. He was married to Estrella Booher Oct. 22, 1930, in Natalia.

He was a farmer by profession and was of the Seven-Day Adventist faith. He was buried in St. John's Lutheran Cemetery.

Survivors include his wife, one son, and two daughters. His son is Ernest Allen Ziegenbalg of Lincoln, Neb., and daughters include Mrs. Gladys Scott, San Antonio; and Mrs. Loretta Cotter, Boise, Idaho. He is also survived by four brothers and one sister. His brothers are Emil Ziegenbalg, San Antonio; Bill Seifert, Hondo; and Paul Seifert, San Francisco, Calif. His sister is Mrs. Walter Bippert, of Natalia. Pallbearers were Ernest Halub, Richard Thanjura, Walter Hamilton, Alfons Forge, Charles McKee and John Bucklaitz.

Friends and relatives attending the services from out of town included Mrs. Frances Boyd, and M&M Bill Greene of Thaco, Tex.

Two Escape Injury In Car Accident

NATALIA—Two men escaped injury last Friday as a three-car collision caused an estimated \$300 damage.

Blake Williams, a native of Natalia, was driving north on Highway 81, about one-half mile out of town when the accident occurred. Looking up, Blake saw a car weaving badly, and pulled his car off the highway for several feet.

He failed to avoid the impact, which turned one car on its side and damaged the others.

A driver from one of San Antonio's car dealers was driving one new car and towing another. The tow car partially broke loose, causing the driver to lose control of the vehicle, causing the accident.

As summer temperatures climb above the 85 degree mark, many poultry flocks will register drops in egg production. Ben Wormel, extension poultry husbandman, says increased watering space, more effective ventilation systems, water sprays or sprinklers and shade will all be used in an effort to beat "old sol". The laying hen must be kept as comfortable as is possible under the circumstances in order to keep her intake of feed at a high rate. No eat, no lay.

ALL THAT WAS SAVED from a Sunday fire in Moore, Tex., at the home of Ben Cruz. Cause of the fire is undetermined and Cruz was not home at the time. The Devine Volunteer Fire Department answered the call but was too late to save the frame structure. The fire was discovered about 1:30 p. m. and firemen reached the scene around 1:42.

Services Held For Mangold

Funeral services for Louis Mangold, 89, were held June 20 in Castroville. Rosary was recited in St. Louis Church, Castroville, with Rev. Leo Goertz officiating. Interment was in St. Louis Cemetery.

Prominent pioneer resident of Castroville, he died at his home June 19.

Mangold was born in Castroville July 7, 1866, and had lived his entire life in that city. As a young man, he drove a wagon train to Fort Davis, and helped with the construction of the SAAP Railroad to Kerrville. He was a retired merchant.

He was married to Anna Conrad Oct. 29, 1889, and celebrated his golden wedding anniversary in 1939.

He is survived by two sons, three daughters, 27 grandchildren, 31 great grand children and three great, great grand children. Sons are Adolph of Castroville and Leonard of San Antonio and daughters are Mrs. Rose Mills and Mrs. Irma Biediger of San Antonio; and Mrs. Mary Keller of LaCoste.

Pallbearers were his grandsons, Wilmer Mangold, Vincent Keller, Claude Biediger, Herbert Mills, Vernon Mangold and Joe Biediger Jr.

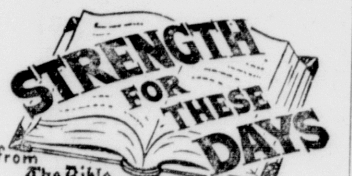

Water Pump Installed At Well Two

The city has just installed a new water pump on well number two at Hondo Air Base.

Homer Wilson, head of the city water system, said more than 38 million gallons of water was used during the month of May and the amount used in June has exceeded that.

Two of the city's wells are automatic and pump when water pressure lowers. The new pump is not automatic and runs about 18 hours a day.

The new pump is a 12 inch turbine, costing \$4,565.

All things were made by Him; and without Him was not any thing made that was made. In Him was light, and the light was the light of men. —(St. John 1; 3, 4.)

Some of us achieve fame or wealth, power or prominence; some of us live out our lives in obscurity. We are born white, or brown, or yellow—and God is Father of us all; His light burns equally bright in every one of us.

Hondo Guard Sets Record At Fort Hood

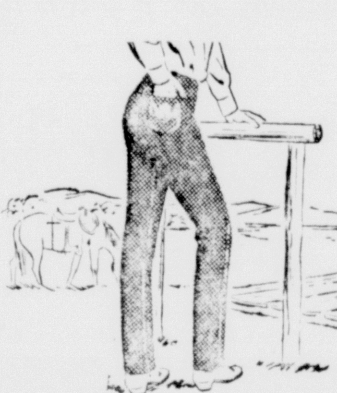

Hondo's Heavy Mortar Company of the 141st Infantry Regiment has established a new company record for number of men taking summer training with the 36th Division, Texas National Guard.

Heavy Mortar Company, commanded by Capt. Roland Weber, took 78 enlisted men and five officers to camp.

Most first week work was spent in the garrison area and included qualification of weapons and classwork.

The second week will be spent in the field, with the civilian soldiers living under simulated combat conditions at North Fort Hood.
